**CITY OF COUNTRY  
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT  
FOR THE YEAR ENDED 30 JUNE 2025**

**1. BASIS OF PREPARATION**

AASB 1054.7

The financial report of the City of Country which is a Class 1 local government comprises general purpose financial statements which have been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

**Local Government Act 1995 requirements**

Section 6.4(2) of the *Local Government Act 1995* read with the *Local Government (Financial Management) Regulations 1996* prescribe that the financial report be prepared in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the City to measure any vested improvements at zero cost.

Exclude paragraph where not applicable

The *Local Government (Financial Management) Regulations 1996* provide that:

- land and buildings classified as property, plant and equipment; or
  - infrastructure; or
  - vested improvements that the local government controls ;
- and measured at reportable value, are only required to be revalued every five years. Revaluing these non-financial assets every five years is a departure from *AASB 116 Property, Plant and Equipment*, which would have required the City to assess at each reporting date whether the carrying amount of the above mentioned non-financial assets materially differs from their fair value and, if so, revalue the class of non-financial assets.

AASB 108.13

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

**Critical accounting estimates and judgements**

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

AASB 101.122  
AASB 101.125

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying amounts of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

As with all estimates, the use of different assumptions could lead to material changes in the amounts reported in the financial report.

The following are estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and further information on their nature and impact can be found in the relevant note:

- Fair value measurement of assets carried at reportable value including:
  - Property, plant and equipment - Note 8
  - Infrastructure - Note 9
- Expected credit losses on financial assets - Note 5
- Assets held for sale - Note 7
- Impairment losses of non-financial assets - Note 8 and 9
- Investment property - Note 12
- Estimated useful life of intangible assets - Note 13
- Measurement of employee benefits - Note 17
- Measurement of provisions - Note 18

Fair value hierarchy information can be found in Note 28

**The local government reporting entity**

All funds through which the City controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 34 of the financial report.

**Initial application of accounting standards**

During the current year, the following new or revised Australian Accounting Standards and Interpretations were applied for the first time.

- *AASB 2020-1 Amendments to Australian Accounting Standards - Classification of Liabilities as Current or Non-current*
- *AASB 2022-5 Amendments to Australian Accounting Standards - Lease Liability in a Sale and Leaseback*
- *AASB 2022-6 Amendments to Australian Accounting Standards - Non-current Liabilities with Covenants*
- *AASB 2023-3 Amendments to Australian Accounting Standards - Disclosure of Non-current Liabilities with Covenants: Tier 2*
- *AASB 2024-1 Amendments to Australian Accounting Standards - Supplier Finance Arrangements: Tier 2 Disclosures*
- *AASB 2023-1 Amendments to Australian Accounting Standards - Supplier Finance Arrangements*

AASB 108.28

These amendments are not expected to have any material impact on the financial report on initial application.

- *AASB 2022-10 Amendments to Australian Accounting Standards - Fair Value Measurement of Non-Financial Assets of Not-for-Profit Public Sector Entities*

These amendment may result in changes to the fair value of certain non-financial assets on revaluation. The impact has not been quantified as it is not considered practicable to determine the amount of the difference in fair value attributable to the change in the standard.

**New accounting standards for application in future years**

The following new accounting standards will have application to local government in future years:

- *AASB 2014-10 Amendments to Australian Accounting Standards - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*
- *AASB 2024-4b Amendments to Australian Accounting Standards - Effective Date of Amendments to AASB 10 and AASB 128 [deferred AASB 10 and AASB 128 amendments in AASB 2014-10 apply]*
- *AASB 2022-9 Amendments to Australian Accounting Standards - Insurance Contracts in the Public Sector*
- *AASB 2023-5 Amendments to Australian Accounting Standards - Lack of Exchangeability*
- *AASB 18 (FP) Presentation and Disclosure in Financial Statements - (Appendix D) [for for-profit entities]*
- *AASB 18 (NFP/super) Presentation and Disclosure in Financial Statements - (Appendix D) [for not-for-profit and superannuation entities]*
- *AASB 2024-2 Amendments to Australian Accounting Standards - Classification and Measurement of Financial Instruments*
- *AASB 2024-3 Amendments to Australian Accounting Standards - Annual Improvements Volume 11*

AASB 108.30

These amendments are not expected to have any material impact on the financial report on initial application.

**CITY OF COUNTRY  
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT  
FOR THE YEAR ENDED 30 JUNE 2025**

AASB 101.10(e)(ea)  
AASB 101.38

**2. REVENUE AND EXPENSES**

**(a) Revenue**

**Contracts with customers**

AASB15.110 Recognition of revenue is dependant on the source of revenue and the associated terms and conditions associated with each source of revenue and recognised as follows:

Revenue category	Nature of goods and services	When obligations typically satisfied	Payment terms	Returns/refunds/warranties	Timing of revenue recognition
Grants, subsidies and contributions	Community events, minor facilities, research, design, planning evaluation and services	Over time	Fixed terms transfer of funds based on agreed milestones and reporting	Contract obligation if project not complete	Output method based on project milestones and/or completion date matched to performance obligations
Fees and charges - licences, registrations, approvals	Building, planning, development and animal management	Single point in time	Full payment prior to issue	None	On payment of the licence, registration or approval
Fees and charges - waste management entry fees	Waste treatment, recycling and disposal service at disposal sites	Single point in time	Payment in advance at gate or on normal trading terms if credit provided	None	On entry to facility
Fees and charges - airport landing charges	Permission to use facilities and runway	Single point in time	Monthly in arrears	None	On landing/departure event
Fees and charges - sale of stock	Aviation fuel, kiosk and visitor centre stock	Single point in time	In full in advance, on 15 day credit	Refund for faulty goods	At point of sale
Other revenue - private works	Contracted private works	Single point in time	Monthly in arrears	None	At point of service

AASB 15.122, 126 (a) Consideration from contracts with customers is included in the transaction price.

**Revenue recognition**

AASB 1058.36 Rate revenue was recognised from the rate record as soon as practicable after the City resolved to impose rates in the financial year as well as when the rate record was amended to ensure the information in the record was current and correct.

AASB 15.113 (a) Revenue recognised during the year under each basis of recognition by nature of goods or services is provided in the table below:

**For the year ended 30 June 2025**

AASB 15.118(c) The impairment loss on contract assets has been recognised in relation to expenditure incurred for a future event for which grant funding is yet to be received. This amount has been recognised as revenue as the City has satisfied the relevant performance obligations in the contract. The City has calculated the loss allowance to take into account the credit risk associated with the event being cancelled due to ongoing uncertainties.

**MATERIAL ACCOUNTING POLICIES  
Cash and cash equivalents**

AASB 107.6  
AASB 107.7  
AASB 107.46

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Bank overdrafts are reported as short term borrowings in current liabilities in the statement of financial position.

Term deposits are presented as cash equivalents if they have a maturity of three months or less from the date of acquisition and are repayable with 24 hours notice with no loss of interest.

**Restricted financial assets**

Restricted financial asset balances are not available for general use by the local government due to externally imposed restrictions. Restrictions are specified in an agreement, contract or legislation. This applies to reserve accounts, unspent grants, subsidies and contributions and unspent loans that have not been fully expended in the manner specified by the contributor, legislation or loan agreement.

Units in Local Government House Trust - closing balance

	17,517	12,409
	5,643	5,108
	23,160	17,517

Loans receivable from clubs/institutions have the same terms and conditions as the related borrowing disclosed in Note 32(a) as self-supporting loans. Fair value of financial assets at fair value through profit or loss is determined from the net asset value of the units held in the Trust at balance date as compiled by WALGA.

AASB 101.117

**MATERIAL ACCOUNTING POLICIES  
Other financial assets at amortised cost**

AASB 9.4.1.2

The City classifies financial assets at amortised cost if both of the following criteria are met:  
- the asset is held within a business model whose objective is to collect the contractual cashflows; and  
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Fair values of financial assets at amortised cost are not materially different to their carrying amounts, since the interest receivable on those assets is either close to current market rates or the assets are of a short term nature. Non-current financial assets at amortised cost fair values are based on discounted cash flows using a current market rates. They are classified as level 2 fair values in the fair value hierarchy (see Note 28 (i)) due to the observable market rates.

AASB 107.33

Interest received is presented under cashflows from operating activities in the Statement of Cash Flows where it is earned from financial assets that are held for cash management purposes.

**Financial assets at fair value through profit or loss**

The City classifies the following financial assets at fair value through profit or loss:  
- debt investments which do not qualify for measurement at either amortised cost or fair value through other comprehensive income.  
- equity investments which the City has elected to recognise as fair value gains and losses through profit or loss.

**Impairment and risk**

Information regarding impairment and exposure to risk can be found at Note 26.

AASB 9.B4.1.3

The carrying amounts of the trade and other receivables include receivables which are subject to a factoring arrangement. Under the factoring arrangement, the City of Country has transferred the relevant receivables to the factor in exchange for cash and is prevented from selling or pledging the receivables, late payment and credit risk remains with the City of Country, therefore the City continues to recognise the transferred assets in their entirety. The amount repayable under the factoring arrangement is presented as a secured borrowing under other loans at Note 16. The City considers that the held to collect business model remains appropriate for these receivables and continues measuring them at amortised cost.

AASB 15.116(a)

**Disclosure of opening and closing balances related to contracts with customers**

Information about receivables from contracts with customers along with financial assets and associated liabilities arising from transfers to enable the acquisition or construction of recognisable non-financial assets is:

Note	30 June 2025 Actual \$	30 June 2024 Actual \$	1 July 2023 Actual \$

AASB 15.116(a)

AASB 101.117

**MATERIAL ACCOUNTING POLICIES**

**Rates and statutory receivables**

Rates and statutory receivables are non-contractual receivables arising from statutory requirements and include amounts due from ratepayers for unpaid rates and service charges and other statutory charges or fines.

AASB 9.C6  
AASB 9.C7

Rates and statutory receivables are recognised when the taxable event has occurred and can be measured reliably.

**Trade receivables**

Trade receivables are amounts receivable from contractual arrangements with customers for goods sold, services performed or grants or contributions with sufficiently specific performance obligations or for the construction of recognisable non financial assets as part of the ordinary course of business.

**Other receivables**

Other receivables are amounts receivable from contractual arrangements with third parties other than contracts with customers and amounts received as grants for the construction of recognisable non financial assets.

**Measurement**

Trade and other receivables are recognised initially at the amount of the transaction price, unless they contain a significant financing component, and are to be recognised at fair value.

AASB 9.5.1.3  
AASB 7.21

**Classification and subsequent measurement**

Receivables which are generally due for settlement within 30 days except rates receivables which are expected to be collected within 12 months are classified as current assets. All other receivables such as, deferred pensioner rates receivable after the end of the reporting period are classified as non-current assets.

AASB 101.66

Trade and other receivables are held with the objective to collect the contractual cashflows and therefore the City measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

AASB 7.25,29(a)

AASB 13.97,93(b),(d)

**Impairment and risk exposure**

Information about the impairment of trade receivables and their exposure to credit risk and interest rate risk can be found in Note 26.

AASB 102.36(d)		(997,735)	(567,401)
AASB 102.36(e)	2(b)	(1,162,609)	(623,500)
		2,250,877	1,565,684
AASB 102.36(b)		4,402,315	4,311,782

AASB 101.117(b)  
AASB 102  
AASB 102.9

**MATERIAL ACCOUNTING POLICIES**

**General**

Inventories are measured at the lower of cost and net realisable value.

AASB 102.36(a)

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

**Land held for resale**

AASB 102.9  
AASB 102.10  
AASB 102.36(a)

Land held for development and resale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development.

**Land held for resale (Continued)**

Borrowing costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed onto the buyer at this point.

Land held for resale is classified as current except where it is held as non-current based on the City's intentions to release for sale.

**CITY OF COUNTRY**  
**NOTES TO AND FORMING PART OF THE FINANCIAL REPORT**  
**FOR THE YEAR ENDED 30 JUNE 2025**

**7. OTHER ASSETS**

	2025	2024
	\$	\$
<b>Other assets - current</b>		
AASB 101.77,78(b) Prepayments	505,684	566,051
Accrued income	288,859	106,541
AASB 15.116(a) Contract assets	124,954	23,000
AASB 15.113(b) Allowance for impairment of contract assets	(8,740)	0
	910,757	695,592
<b>Non-current assets held for sale</b>		
AASB 5.38 Land	653,000	0
	653,000	0

**Land classified as non-current assets held for sale**

AASB 5.41(a),(b),(c) During the year council elected to dispose of vacant land on Main Street. The land is currently being marketed for sale. The property is to be disposed of by public auction in August 2024, with a number of parties having already shown an interest in the property.

**MATERIAL ACCOUNTING POLICIES**

**Other current assets**

Other non-financial assets include prepayments which represent payments in advance of receipt of goods or services or that part of expenditure made in one accounting period covering a term extending beyond that period.

**Contract assets**

Contract assets primarily relate to the City's right to consideration for work completed but not billed at the end of the period.

Impairment of assets associated with contracts with customers are detailed at Note 2(b).

**Non-current assets held for sale**

Assets are classified as held for sale where the carrying amount will be recovered through a sale rather than continuing use and the asset is available for immediate sale with a sale being highly probable. Non-current assets classified as held for sale are valued at the lower of the carrying amount and fair value less costs to sell.

The fair value of land and buildings was determined using the sales comparison approach using comparable properties in the area. This is a level 2 measurement as per the fair value hierarchy set out in Note 28(i).

FOR THE YEAR ENDED 30 JUNE 2025**

AASB 101.10(e)(ea)

AASB 101.38

**8. PROPERTY, PLANT AND EQUIPMENT (Continued)**

AASB 13.91

**(b) Carrying amount measurements**

AASB 116.77

Asset class	Note	Carrying amount 2025 \$	Carrying amount 2024 \$	Fair value hierarchy	Valuation technique	Basis of valuation	Date of last valuation	Inputs used
<b>(i) Fair value - as determined at the last valuation date</b>								
<b>Land and buildings</b>								
Land - market value		11,037,997	64,129,997	2	Market approach using recent observable market data for similar properties	Independent registered valuer	June 2025	Price per square metre
Land - subject to useage restrictions		52,547,156	0	3	Market approach using recent observable market data for similar properties	Management valuation	June 2025	Price per square metre, discounted due to useage restrictions
Total land	8(a)	63,585,153	64,129,997					
Buildings - non specialised		3,864,406	3,351,869	2	Market approach using recent observable market data for similar properties	Independent registered valuer	June 2025	Price per square metre
Buildings - specialised		72,852,373	64,745,294	3	Cost approach using current replacement cost	Management valuation	June 2025	Construction costs and current condition, residual values and remaining useful life assessments inputs
Total buildings	8(a)	76,716,779	68,097,163					

Level 3 inputs are based on assumptions with regards to future values and patterns of consumption utilising current information. If the basis of these assumptions were varied, they have the potential to result in a significantly higher or lower fair value measurement.

During the period there were no changes in the valuation techniques used by the local government to determine the fair value of property, plant and equipment using either level 2 or level 3 inputs. The valuation techniques applied to property subject to lease was the same as that applied to property not subject to lease.

\*\* The impairment loss relates to assets damaged by a flood event. The whole amount was recognised in the asset revaluation surplus relating to the relevant asset class. Refer to Note 19.

**CITY OF COUNTRY**  
**NOTES TO AND FORMING PART OF THE FINANCIAL REPORT**  
**FOR THE YEAR ENDED 30 JUNE 2025**

AASB 101.10(e)(ea)  
AASB 101.38

**9. INFRASTRUCTURE (Continued)**

AASB 13.91 **(b) Carrying amount measurements**

AASB 116.77  
AASB 116.Aus77.1

<b>Asset class</b>	<b>Fair value hierarchy</b>	<b>Valuation technique</b>	<b>Basis of valuation</b>	<b>Date of last valuation</b>	<b>Inputs used</b>
<b>(i) Fair value - as determined at the last valuation date</b>					
<b>Infrastructure - roads</b>	3	Cost approach using current replacement cost	Management valuation	June 2024	Construction costs and current condition, residual values and remaining useful life assessments inputs
<b>Infrastructure - footpaths</b>	3	Cost approach using current replacement cost	Management valuation	June 2024	Construction costs and current condition, residual values and remaining useful life assessments inputs
<b>Infrastructure - drainage</b>	3	Cost approach using current replacement cost	Management valuation	June 2024	Construction costs and current condition, residual values and remaining useful life assessments inputs
<b>Infrastructure - parks and ovals</b>	3	Cost approach using current replacement cost	Management valuation	June 2024	Construction costs and current condition, residual values and remaining useful life assessments inputs
<b>Infrastructure - other</b>	3	Cost approach using current replacement cost	Management valuation	June 2024	Construction costs and current condition, residual values and remaining useful life assessments inputs
<b>Infrastructure - landfill assets</b>	3	Cost approach using current replacement cost	Management valuation	June 2023	Construction costs and current condition, residual values and remaining useful life assessments inputs

Level 3 inputs are based on assumptions with regards to future values and patterns of consumption utilising current information. If the basis of these assumptions were varied, they have the potential to result in a significantly higher or lower fair value measurement.

During the period there were no changes in the valuation techniques used to determine the fair value of infrastructure using level 3 inputs.

**CITY OF COUNTRY**  
**NOTES TO AND FORMING PART OF THE FINANCIAL REPORT**  
**FOR THE YEAR ENDED 30 JUNE 2025**

AASB 101.10(e)(ea)

AASB 101.38

**10. FIXED ASSETS**

**(a) Depreciation**

AASB 101.117

**Depreciation rates**

AASB 116.73(c)

Typical estimated useful lives for the different asset classes for the current and prior years are included in the table below:

Asset class	Useful life
AASB 101.77 Buildings	30 to 50 years
Furniture and equipment	4 to 10 years
Plant and equipment	5 to 15 years
Sealed roads and streets formation	not depreciated
pavement seal	50 years
- bituminous seals	20 years
- asphalt surfaces	25 years
Gravel roads formation	not depreciated
pavement	50 years
Footpaths - slab	20 years
Sewerage piping	100 years
Water supply piping and drainage systems	75 years
Landfill assets	30 years
Right-of-use (buildings)	Based on the remaining lease term
Right-of-use (plant and equipment)	Based on the remaining lease term

AASB 108.39

**Revision of useful lives of plant and equipment**

AASB 116.76

During the year the estimated total useful lives of certain items of plant and equipment used in the maintenance of road infrastructure were revised. The net effect of the change is a net increase in depreciation of \$97,475.

**(b) Temporarily idle or retired from use assets**

AASB 116.79(a),(c)

The carrying amount of assets held by the City which are temporarily idle or retired from active use and not classified as held for sale are shown in the table below.

	2025	2024
	\$	\$
Buildings - specialised	456,045	452,350
Furniture and equipment	113,036	111,042
Plant and equipment	26,034	35,024
	595,115	598,416

**(c) Fully depreciated assets in use**

AASB 116.79(b)

The gross carrying amount of assets held by the City which are currently in use yet fully depreciated are shown in the table below.

Furniture and equipment	124,647	121,098
Plant and equipment	212,093	210,345
	336,740	331,443

**10. FIXED ASSETS (Continued)**

<p>AASB 101.117 AASB 116 AASB 116.15</p>	<p><b>MATERIAL ACCOUNTING POLICIES</b> <b>Initial recognition</b> An item of property, plant and equipment or infrastructure that qualifies for recognition as an asset is measured at its cost.</p>	<p><b>Depreciation</b> The depreciable amount of all property, plant and equipment and infrastructure, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.</p>	<p>AASB 116.73(b) AASB 116.50</p>
<p>AASB 116.Aus15.1</p>	<p>Upon initial recognition, cost is determined as the amount paid (or other consideration given) to acquire the assets, plus costs incidental to the acquisition. The cost of non-current assets constructed by the City includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition.</p>	<p>The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.</p>	<p>AASB 116.51</p>
<p>FM Reg 17A(5)</p>	<p>Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with <i>Local Government (Financial Management) Regulation 17A(5)</i>. These assets are expensed immediately.</p>	<p><b>Depreciation on revaluation</b> When an item of property, plant and equipment and infrastructure is revalued, any accumulated depreciation at the date of the revaluation is treated in one of the following ways: (i) The gross carrying amount is adjusted in a manner that is consistent with the revaluation of the carrying amount of the asset; or (ii) Eliminated against the gross carrying amount of the asset and the net amount restated to the revalued amount of the asset.</p>	<p>AASB 116.35</p>
<p>FM Reg 17A(2)(b), (c)</p>	<p>Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.</p>	<p><b>Impairment</b> In accordance with <i>Local Government (Financial Management) Regulations 17A(4C)</i>, the City is not required to comply with <i>AASB 136 Impairment of Assets</i> to determine the recoverable amount of its non-financial assets that are land or buildings classified as property, plant and equipment, infrastructure or vested improvements that the local government controls in circumstances where there has been an impairment indication of a general decrease in asset values.</p>	<p>AASB 136.59 FM Reg 17A(4C)</p>
<p>AASB 116.30</p>	<p><b>Measurement after recognition</b> Plant and equipment including furniture and equipment and right-of-use assets (other than vested improvements) are measured using the cost model as required under <i>Local Government (Financial Management) Regulation 17A(2)</i>. Assets held under the cost model are carried at cost less accumulated depreciation and any impairment losses being their reportable value.</p>	<p>In other circumstances where it has been assessed that one or more of these non-financial assets are impaired, the asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.</p>	
<p>FM Reg 17A(4) FM Reg 17A(2)(a)</p>	<p><b>Reportable value</b> In accordance with <i>Local Government (Financial Management) Regulation 17A(2)</i>, the carrying amount of non-financial assets that are land and buildings classified as property, plant and equipment, investment properties, infrastructure or vested improvements that the local government controls.</p>	<p><b>Gains or losses on disposal</b> Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the statement of comprehensive income in the period in which they arise.</p>	
<p>FM Reg 17A(4)</p>	<p>Reportable value is for the purpose of <i>Local Government (Financial Management) Regulation 17A(4)</i> is the fair value of the asset at its last valuation date minus (to the extent applicable) the accumulated depreciation and any accumulated impairment losses in respect of the non-financial asset subsequent to its last valuation date.</p>		
<p>FM Reg 17A(4A)</p>	<p><b>Revaluation</b> Land and buildings classified as property, plant and equipment, infrastructure or vested improvements that the local government controls and measured at reportable value, are only required to be revalued every five years in accordance with the regulatory framework. This includes buildings and infrastructure items which were pre-existing improvements (i.e. vested improvements) on land vested in the City.</p>		
<p>FM Reg 17A(4B)(b)</p>	<p>Whilst the regulatory framework only requires a revaluation to occur every five years, it also provides for the City to revalue earlier if it chooses to do so.</p>		
<p>AASB 116.Aus39.1</p>	<p>For land, buildings and infrastructure, increases in the carrying amount arising on revaluation of asset classes are credited to a revaluation surplus in equity.  Decreases that offset previous increases of the same class of asset are recognised against revaluation surplus directly in equity. All other decreases are recognised in profit or loss.  Subsequent increases are then recognised in profit or loss to the extent they reverse a net revaluation decrease previously recognised in profit or loss for the same class of asset.</p>

		2025 Actual \$	2024 Actual \$
AASB 16.54	The following amounts were recognised in the statement of comprehensive income during the period in respect of leases where the City is the lessee:		
AASB 16.53 (a)	Depreciation on right-of-use assets	(192,069)	(122,583)
AASB 16.53 (b)	Finance charge on lease liabilities	(17,092)	(13,102)
AASB 16.53 (c)	Short-term lease payments recognised as expense	(3,000)	(3,200)
AASB 16.53 (d)	Low-value asset lease payments recognised as expense	(5,000)	(4,500)
AASB 16.53 (e)	Expenses for variable lease payment not recognised as a liability	(2,000)	(2,000)
	<b>Total amount recognised in the statement of comprehensive income</b>	(219,161)	(145,385)
AASB 16.53 (g)	Total cash outflow from leases	(180,301)	(118,351)
AASB 16.47 (b)	<b>(b) Lease liabilities</b>		
	Current	205,134	127,670
	Non-current	302,743	241,166
		32(d) 507,877	368,836

AASB 16.59 The City has two leases relating to plant and equipment. The lease term for both leases is 4 years. One of the leases has variable lease payments. The measurement of lease liabilities does not include variable lease payments and any future cash outflows associated with leases not yet commenced to which the City is committed. The land and building lease has a term of 4 years with an extension option of 4 years and a termination option of 6 months. Refer to Note 32(d) for details of lease liabilities.

**Secured liabilities and assets pledged as security**

AASB 7.7 Lease liabilities are effectively secured, as the rights to the leased assets recognised in the financial statements  
AASB 7.14(b) revert to the lessor in the event of default.

**MATERIAL ACCOUNTING POLICIES**

**Leases**

AASB 16.9 At inception of a contract, the City assesses if the contract contains or is a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified for a period of time in exchange for consideration.

AASB 16.22 At the commencement date, a right-of-use asset is recognised  
AASB 16.26 at cost and lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the City uses its incremental borrowing rate.

AASB 16.5 All contracts that are classified as short-term leases (i.e. a lease with a term of 12 months or less) and leases of low value assets are recognised as an operating expense on a straight-line basis over the term of the lease.

Details of individual lease liabilities required by regulations are provided at Note 32(d).

**Right-of-use assets - measurement**

Right-of-use assets are measured at cost. All right-of-use assets (other than vested improvements) under zero cost concessionary leases are measured at zero cost (i.e. not recognised in the Statement of Financial Position). The exception is vested improvements on concessionary land leases such as roads, buildings or other infrastructure which are reported at fair value.

Refer to Note 10 under revaluation for details on the material accounting policies applying to vested improvements.

**Right-of-use assets - depreciation**

Right-of-use assets are depreciated over the lease term or useful life of the underlying asset, whichever is the shorter. Where a lease transfers ownership of the underlying asset, or the cost of the right-of-use asset reflects that the City anticipates to exercise a purchase option, the specific asset is depreciated over the useful life of the underlying asset.

AASB 16.32

**11. LEASES (Continued)**

**(c) Lessor - property, plant and equipment subject to lease**

		<b>2025 Actual</b>	<b>2024 Actual</b>

	2 to 3 years	6,000	6,000
	3 to 4 years	6,000	6,000
	4 to 5 years	6,000	6,000
	> 5 years	24,000	30,000
		54,000	60,000
AASB 16.90(b)	<b>Amounts recognised in profit or loss for property, plant and equipment subject to lease</b>		
	Rental income	5,590	5,500

The City leases houses to staff and aged persons with rentals payable monthly. These leases are classified as operating leases as they do not transfer substantially all of the risks and rewards incidental to the ownership of the assets. The staff houses are not considered investment property as they are leased for use in the supply of services to the community. The aged persons housing are considered a joint operation and are not considered investment property as the primary purpose is provision of community housing.

AASB 16.92 Lease payments for some contracts include CPI increases, but there are no other variable lease payments that depend on an index or rate. Although the City is exposed to changes in the residual value at the end of the current leases, the City group typically enters into new operating leases and therefore will not immediately realise any reduction in residual value at the end of these leases. Expectations about the future residual values are reflected in the fair value of the properties.

Refer to Note 12 for details of leased investment property.

<b>MATERIAL ACCOUNTING POLICIES</b>		
AASB 16.61	<b>The City as lessor</b> Upon entering into each contract as a lessor, the City assesses if the lease is a finance or operating lease.	Initial direct costs incurred in entering into an operating lease (eg legal cost, cost to setup) are included in the carrying amount of the leased asset and recognised as an expense on a straight-line basis over the lease term.
AASB 16.62	The contract is classified as a finance lease when the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases not within this definition are classified as operating leases. Rental income received from operating leases is recognised on a straight-line basis over the term of the specific lease.	When a contract is determined to include lease and non-lease components, the City applies AASB 15 <i>Revenue from Contracts with Customers</i> to allocate the consideration under the contract to each component.
AASB 16.81

**MATERIAL ACCOUNTING POLICIES**

**Investment properties**

Investment properties are principally freehold buildings, held for long-term rental yields and not occupied by the City.

FM Reg 17A(2)(a) In accordance with *Local Government (Financial Management) Regulation 17A(2)*, the carrying amount of non-financial assets that are investment properties, are shown at their reportable value.

FM Reg 17A(4) Reportable value for the purposes of *Local Government (Financial Management) Regulation 17A(4)* is the fair value of the asset at its last valuation date.

**Revaluation**

In accordance with the regulatory framework, investment properties are required to be revalued whenever required by AASB 140 and, in any event, every five years.

**Fair value of investment properties**

A management valuation was performed to determine the fair value of investment properties. The main Level 3 inputs used in the valuation were discount rates, yields, expected vacancy rates and rental growth rates estimated by management based on comparable transactions and industry data.

**TOTAL INTANGIBLE ASSETS**

AASB 138.118 (d)

The estimated useful life of intangible assets is 5 years for the current and prior years.

AASB 138.57, 66, 74, 97

**MATERIAL ACCOUNTING POLICIES**

**Computer software**

Costs associated with maintaining software programmes are recognised as an expense as incurred. Development costs that are directly attributable to the design and testing of identifiable and unique software products controlled by the the City are recognised as intangible assets where the following criteria are met:

- it is technically feasible to complete the software so that it will be available for use;
- management intends to complete the software and use or sell it;
- there is an ability to use or sell the software;
- it can be demonstrated how the software will generate probable future economic benefits;
- adequate technical, financial and other resources to complete the development and to use or sell the software are available; and
- the expenditure attributable to the software during its development can be reliably measured.

**Computer software (continued)**

Directly attributable costs that are capitalised as part of the software include employee costs and an appropriate portion of relevant overheads.

Capitalised development costs are recorded as intangible assets and amortised from the point at which the asset is ready for use.

**Amortisation**

All intangible assets with a finite useful life, are amortised on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use.

The residual value of intangible assets is considered to be zero and the useful life and amortisation method are reviewed at the end of each financial year.

Amortisation is included within depreciation in the Statement of Comprehensive Income.

Bonds and deposits held	84,360	76,899
	4,169,296	3,688,810

AASB 101.117

**MATERIAL ACCOUNTING POLICIES**

**Financial liabilities**

Financial liabilities are initially recognised at fair value when the City becomes a party to the contractual provisions of the instrument.

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost.

AASB 9(3.3.1)

Financial liabilities are derecognised where the related obligations are discharged, cancelled or expired. The difference between the carrying amount of the financial liability extinguished or transferred to another party and any consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

**Statutory liabilities**

Statutory liabilities, are amounts owed to regulatory authorities due to statutory obligations such as FBT and PAYG. GST payable is offset against GST receivable and any net GST payable is included as a statutory liability.

**Trade and other payables**

Trade and other payables represent liabilities for goods and services provided to the City prior to the end of the financial year that are unpaid and arise when the City becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are usually paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

AASB 101.17(c)

**Prepaid rates**

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the City recognises income for the prepaid rates that have not been refunded.

**Secured liabilities and assets pledged as security**

AASB 7.7  
AASB 7.14(b) Debentures, bank overdrafts and bank loans are secured by a floating charge over the assets of the City of Country. Other loans relate to transferred receivables. Refer to Note 5.

AASB 101.135(d) The City of Country has complied with the financial covenants of its borrowing facilities during the 2025 and 2024 years.

**MATERIAL ACCOUNTING POLICIES**

**Borrowing costs**

AASB 123.8  
AASB 123.Aus8.1 The City has elected to recognise borrowing costs as an expense when incurred regardless of how the borrowings are applied.

AASB 7.25,29(a) Fair values of borrowings are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature.

AASB 13.97,93(b),(d) Borrowings fair values are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy (see Note 28(i)) due to the unobservable inputs, including own credit risk.

**Risk**

Information regarding exposure to risk can be found at Note 26.

Details of individual borrowings required by regulations are provided at Note 32(a).

<b>Total employee related provisions</b>	<u>5,997,787</u>	<u>5,064,836</u>

Provision is made for benefits accruing to employees in respect of wages and salaries, annual leave and long service leave and associated on costs for services rendered up to the reporting date and recorded as an expense during the period the services are delivered.

Annual leave liabilities are classified as current, as there is no unconditional right to defer settlement for at least 12 months after the end of the reporting period. Assessments indicate that actual settlement of the liabilities is expected to occur as follows:

**Amounts are expected to be settled on the following basis:**

Less than 12 months after the reporting date  
More than 12 months from reporting date

---	----------	----------

**MATERIAL ACCOUNTING POLICIES**

**Employee benefits**

The City's obligations for employees' annual leave, long service leave and other employee leave entitlements are recognised as employee related provisions in the Statement of Financial Position.

**Short-term employee benefits**

Provision is made for the City's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The City's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the statement of financial position.

**Other long-term employee benefits**

Long-term employee benefits provisions are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The City's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the City does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

**Other provisions**

AASB 137.85(a)

Amounts which are expected to be paid out within 12 months of the reporting date are classified as current. Exact timing of payment of non-current obligations is unable to be reliably estimated as it is dependent on factors beyond the control of the local government.

AASB 137.85(b)

**Make good provisions**

Under the licence for the operation of the Country City waste landfill site, the City has a legal obligation to restore the site and continue to monitor the site for contamination.

The provision for future remediation costs is the best estimate of the present value of the expenditure required to settle the remediation obligation and continued monitoring of the site at the reporting date. Expected future remediation costs are reviewed annually and any changes in the estimate are reflected in the remediation provision at each reporting date.

Additional provision was recognised in relation to the make good costs associated with the clearing of a new landfill area.

An unused amount of the provision arising from a reduction in the estimated cost of the remediation of the existing landfill area. The reversal of the provision was transferred to the revaluation surplus - Infrastructure landfill assets. Refer note 19.

The make good provision is reassessed annually whilst the fair value of the related landfill asset is only required to be assessed every 5 years.

AASB 107.43

Non-cash investing activities have occurred due to movements in make good provisions. Refer note 20(c).

**MATERIAL ACCOUNTING POLICIES**  
**Provisions**

AASB 137.14

Provisions are recognised when the City has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

AASB 137.36

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

**21. CONTINGENT LIABILITIES**

AASB 137.86

In compliance with the *Contaminated Sites Act 2003*, the City has listed sites to be possible sources of contamination. Details of those sites are:

- Somewhere City Airport
- Somewhere City Depot

AASB 137.91

Until the City conducts an investigation to determine the presence and scope of contamination, assess the risk, and agree with the Department of Water and Environmental Regulation on the need and criteria for remediation of a risk based approach, the City is unable to estimate the potential costs associated with remediation of these sites. This approach is consistent with the Department of Water and Environmental Regulation Guidelines.

**22. CAPITAL COMMITMENTS**

AASB 116.74(c)

Contracted for:

- capital expenditure projects
- plant & equipment purchases
- investment property

AASB 140.75(h)

**(b) Key management personnel (KMP) compensation**

The total of compensation paid to KMP of the City during the year are as follows:

Short-term employee benefits  
Post-employment benefits  
Employee - other long-term benefits  
Employee - termination benefits  
Council member costs

	1,165,891	1,246,081
	110,658	101,985
	165,904	168,410
	0	15,674
23(a)	229,533	225,953
	1,671,986	1,758,103

*Short-term employee benefits*

These amounts include all salary and fringe benefits awarded to KMP except for details in respect to fees and benefits paid to council members which may be separately found in the table above.

*Post-employment benefits*

These amounts are the current-year's cost of the City's superannuation contributions made during the year.

*Other long-term benefits*

These amounts represent annual leave and long service leave entitlements accruing during the year.

*Termination benefits*

These amounts represent termination benefits paid to KMP (Note: may or may not be applicable in any given year).

*Council member costs*

These amounts represent payments of member fees, expenses, allowances and reimbursements during the year.

<b>Amounts outstanding from related parties:</b>		
Trade and other receivables	13,540	5,684
<b>Amounts payable to related parties:</b>		
Trade and other payables	25,601	32,564

**(d) Related parties**

**The City's main related parties are as follows:**

*i. Key management personnel*

Any person(s) having authority and responsibility for planning, directing and controlling the activities of the City, directly or indirectly, including any council member, are considered key management personnel.

*ii. Other Related Parties*

During the previous year, a company controlled by a related party of a council member, was awarded a contract under the selective tender process on terms and conditions equivalent for those that prevail in arm's length transactions under the City's procurement process.

The contract involved roadworks in the City, and amounted to \$265,941 in the current year (\$369,871 in the prior year).

The City provides finance and governance services to its associate, the value of these services amounted to \$13,032 in the current year (\$11,068 in the prior year).

Short-term employee benefits related to an associate person of the CEO who was employed by the City under normal employment terms and conditions.

Outside of normal citizen type transactions with the City, there were no other related party transactions involving key management personnel and/or their close family members and/or their controlled (or jointly controlled) entities.

*iii. Entities subject to significant influence by the City*

Joint arrangements detailed in Note 24 and associates detailed in Note 25.

**24. JOINT ARRANGEMENTS**

AASB 12.1(a)

**Share of joint operations**

AASB 12.2(a)

The City has an agreement with the Department of Communities for the provision of community housing on Town Street, Country Town. This arrangement constitutes a joint arrangement as unanimous decisions are required by the parties to the agreement amounting to joint control. The arrangement has been determined to be a joint arrangement.

AASB 12.21(a)(iii)

AASB 12.21(a)(ii)

The assets held under the agreement by both parties are land and 6 x 2 bedroom units. The ownership of the joint operation being the Country Town Aged Houses, is defined in the agreement including the percentage of each party's proportionate interest in the assets of the joint operation. Surplus funds are held in the Aged Persons unit reserve account for future building maintenance.

AASB 12.21(a)(i)

AASB 12.2(b)(ii)

The City manages the property and tenancy of the joint operation and the effects of its interest in the joint operations are as follows:

**MATERIAL ACCOUNTING POLICIES**

**Joint operations**

AASB 11.15

A joint operation is a joint arrangement where the City has joint control with two or more parties to the joint arrangement. All parties to joint arrangement have rights to the assets, and obligations for the liabilities relating to the arrangement.

AASB 11.21

Assets, liabilities, revenues and expenses relating to the City's interest in the joint operation are accounted for in accordance with the relevant Australian Accounting Standards.

**CITY OF COUNTRY**  
**NOTES TO AND FORMING PART OF THE FINANCIAL REPORT**  
**FOR THE YEAR ENDED 30 JUNE 2025**

**25. INVESTMENT IN ASSOCIATES**

**(a) Investment in associates**

Set out in the table below are the associates of the City. All associates are measured using the equity method. Western Australia is the principal place of business for all associates.

Name of entity	% of ownership interest 2025	% of ownership interest 2024	2025 Actual \$	2024 Actual \$
Country Regional Council (Refer to Note 25(b))	16.67%	16.67%	204,331	200,777
Immaterial investments in associates (Refer to Note 25(c))			6,476	6,120
<b>Total equity-accounted investments</b>			<b>210,807</b>	<b>206,897</b>

**(b) Share of investment in Country Regional Council**

AASB 12.21 The City has a 1/6th interest in Country Regional Council. The Regional Council was formed to manage the development and sale of land at Country Town Estate on behalf of six local governments.

AASB 12.9(e) The City has determined it has significant influence over the Regional Council despite holding less than 20 percent of the voting rights as the City has representation on council and participates in policy-making decisions including the decisions regarding contributions and distributions.

AASB 12.21(b)(i)  
AASB 12.B14 The tables below reflect the summarised financial information of the material investments in associates based on the audited results of the Country Regional Council. This does not reflect the City's share of those amounts. They have been amended to reflect adjustments made by the City when using the equity method, including fair value adjustments and modifications for differences in accounting policy.

AASB 101.117  
**MATERIAL ACCOUNTING POLICIES**  
**Investments in associates**  
An associate is an entity over which the City has significant influence, that is it has the power to participate in the financial and operating policy decisions of the investee but not control or joint control of those policies.

AASB 128.3

AASB 128.16  
Investments in associates are accounted for using the equity method. The equity method of accounting, is whereby the investment is initially recognised at cost and adjusted thereafter for the post-acquisition change in the City's share of net assets of the associate. In addition, the City's share of the profit or loss of the associate is included in the City's profit or loss.

**(e) Share of associates net profit/(loss) for the period**

**26. FINANCIAL RISK MANAGEMENT**

AASB 7

This note explains the City's exposure to financial risks and how these risks could affect the City's future financial performance.

AASB 7.31,32,33

<b>Risk</b>	<b>Exposure arising from</b>	<b>Measurement</b>	<b>Management</b>
<b>Market risk - interest rates</b>	Long term borrowings at variable rates	Sensitivity analysis	Utilise fixed interest rate borrowings
<b>Credit risk</b>	Cash and cash equivalents, trade receivables, financial assets and debt investments	Aging analysis Credit analysis	Diversification of bank deposits, credit limits. Investment policy
<b>Liquidity risk</b>	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities

AASB7.31,34(c)

The City does not engage in transactions expressed in foreign currencies and is therefore not subject to foreign currency risk.

Financial risk management is carried out by the finance department under policies approved by the council. The finance department identifies, evaluates and manages financial risks in close co-operation with the operating divisions. Council have approved the overall risk management policy and provide policies on specific areas such as investment policy.

**(a) Interest rate risk**

**Cash and cash equivalents**

AASB 7.22A(a),(b)  
AASB 7.33(a),(b)

The City's main interest rate risk arises from cash and cash equivalents with variable interest rates, which exposes the City to cash flow interest rate risk. Short term overdraft facilities also have variable interest rates however these are repaid within 12 months, reducing the risk level to minimal.

Excess cash and cash equivalents are invested in fixed interest rate term deposits which do not expose the City to cash flow interest rate risk. Cash and cash equivalents required for working capital are held in variable interest rate accounts and non-interest bearing accounts. Carrying amounts of cash and cash equivalents at the 30 June and the weighted average interest rate across all cash and cash equivalents, term deposits, and Treasury bonds held disclosed as financial assets at amortised cost are reflected in the table below.

AASB 7.22A(c)  
AASB 7.34(a)

	<b>Weighted average interest rate</b>	<b>Carrying amounts</b>	<b>Fixed interest rate</b>	<b>Variable interest rate</b>	<b>Non interest bearing</b>
	<b>%</b>	<b>\$</b>	<b>\$</b>	<b>\$</b>	<b>\$</b>
<b>2025</b>					
Cash and cash equivalents	2.40%	24,562,679	20,424,815	3,981,383	156,481
Financial assets at amortised cost - term deposits	2.51%	9,167,062	9,167,062	0	0
Financial assets at amortised cost - Treasury bonds	2.60%	2,000,000	2,000,000	0	0
<b>2024</b>					
Cash and cash equivalents	1.93%	19,641,775	11,454,473	7,918,843	268,459
Financial assets at amortised cost - term deposits	1.91%	7,106,849	7,106,849	0	0
Financial assets at amortised cost - Treasury bonds	1.96%	1,100,000	1,100,000	0	0

**Sensitivity**

AASB 7.40

Profit or loss is sensitive to higher/lower interest income from cash and cash equivalents as a result of changes in interest rates.

	<b>2025</b>	<b>2024</b>
	<b>\$</b>	<b>\$</b>
Impact of a 1% movement in interest rates on profit or loss and equity*	39,814	79,188

\* Holding all other variables constant

**Borrowings**

AASB 7.22A(a),(b)  
AASB 7.33(a),(b)

Borrowings are subject to interest rate risk - the risk that movements in interest rates could adversely affect funding costs. The City manages this risk by borrowing long term and fixing the interest rate to the situation considered the most advantageous at the time of negotiation. The City does not consider there to be any interest rate risk in relation to borrowings. Details of interest rates applicable to each borrowing may be found at Note 32(a).

**CITY OF COUNTRY**  
**NOTES TO AND FORMING PART OF THE FINANCIAL REPORT**  
**FOR THE YEAR ENDED 30 JUNE 2025**

AASB 101.10(e)(ea)  
AASB 101.38

AASB 7 **26. FINANCIAL RISK MANAGEMENT (Continued)**

**(b) Credit risk**

**Trade and other receivables**

The City's major trade and other receivables comprise contractual non-statutory user fees and charges, grants, contributions and reimbursements. The major risk associated with these receivables is credit risk – the risk that the debts may not be repaid. The City manages this risk by monitoring outstanding debt and employing debt recovery policies.

The level of outstanding receivables is reported to council monthly and benchmarks are set and monitored for acceptable collection performance.

AASB 101.117 The City applies the AASB 9 Financial Instruments simplified approach to measuring expected credit losses using a lifetime expected loss allowance for all trade and other receivables. To measure the expected credit losses, receivables from grants, contributions and reimbursements are separated from other trade receivables due to the difference in payment terms and security.

AASB 7.35G The expected loss rates are based on the payment profiles of trade and other receivables over a period of 36 months before 1 July 2024 or 1 July 2025 respectively and the corresponding historical losses experienced within this period. Historical credit loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors such as the ability of users to settle the receivables.

The loss allowance as at 30 June 2025 and 30 June 2024 was determined as follows for trade and other receivables.

	Current	More than 30 days past due	More than 60 days past due	More than 90 days past due	Total
<b>30 June 2025</b>					
<b>Trade receivables</b>					
Expected credit loss	0.99%	2.15%	4.88%	8.88%	
Gross carrying amount	406,122	115,647	70,660	26,791	619,220
Loss allowance	4,034	2,486	3,448	2,379	12,347
<b>Other receivables</b>					
Expected credit loss	0.25%	0.00%	0.00%	3.56%	
Gross carrying amount	367,080	0	0	39,451	406,531

AASB 101.10(e)(ea)  
AASB 101.38

AASB 7 **26. FINANCIAL RISK MANAGEMENT (Continued)**

**(b) Credit risk (Continued)**

AASB7(35H)(b)(iii) The loss allowances for trade, other receivables and contract assets as at 30 June reconcile to the opening loss allowances as follows:

	Trade receivables		Other receivables		Contract assets	
	2025 Actual	2024 Actual	2025 Actual	2024 Actual	2025 Actual	2024 Actual
AASB 15.113(b) <b>Opening loss allowance as at 1 July</b>	\$ 11,030	\$ 16,324	\$ 2,304	\$ 1,056	\$ 0	\$ 0
Increase in loss allowance recognised in profit or loss during the year	4,897	1,317	1,980	1,659	8,740	0
AASB7(35I)(c) Receivables written off during the year as uncollectible	(3,985)	(6,611)	(1,632)	0	0	0
AASB7(35I)(c) Unused amount reversed	405	0	(348)	(759)	0	0
<b>Closing loss allowance at 30 June</b>	<b>12,347</b>	<b>11,030</b>	<b>2,304</b>	<b>1,956</b>	<b>8,740</b>	<b>0</b>

AASB7(35F)(e) Trade, other receivables and contract assets are written off where there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of a debtor to engage in a repayment plan with the City, and a failure to make contractual payments for a period of greater than 120 days past due.

Impairment losses on rates and statutory receivables, trade, other receivables and contract assets are presented as net impairment losses within other expenditure. Subsequent recoveries of amounts previously written off are credited against the same line item.

**Contract assets**

AASB 15.118(b) The City's contract assets represent work completed, which have not been invoiced at year end. This is due to the City not having met all the performance obligations in the contract which give an unconditional right to receive consideration. The City applies the simplified approach to measure expected credit losses which uses a lifetime expected loss allowance for all contract assets. To measure the expected credit losses, contract assets have been grouped based on shared credit risk characteristics and the days past due. Contract assets have substantially the same risk characteristics as the trade receivables for the same types of contracts. The City has therefore concluded that the expected loss rates for trade receivables are a reasonable approximation of the loss rates for the contract assets.

**CITY OF COUNTRY**

AASB 7

**26. FINANCIAL RISK MANAGEMENT (Continued)**

AASB 7.39

**(c) Liquidity risk**

**Payables and borrowings**

AASB 7.34(a)

Payables and borrowings are both subject to liquidity risk – that is the risk that insufficient funds may be on hand to meet payment obligations as and when they fall due. The City manages this risk by monitoring its cash flow requirements and liquidity levels and maintaining an adequate cash buffer. Payment terms can be extended and overdraft facilities drawn upon if required and disclosed in Note 20(d).

AASB 7(B11D)

The contractual undiscounted cash flows of the City's payables and borrowings are set out in the liquidity table below. Balances due within 12 months equal their carrying amounts, as the impact of discounting is not significant.

AASB 7.39(a),(b)

	Due within 1 year	Due between 1 & 5 years	Due after 5 years	Total contractual cash flows	Carrying amount
<u>2025</u>	\$	\$	\$	\$	\$

AASB 101.10(e)

**CITY OF COUNTRY  
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT  
FOR THE YEAR ENDED 30 JUNE 2025**

AASB 110

**27. EVENTS OCCURRING AFTER THE END OF THE REPORTING PERIOD**

Following the end of the financial year the City's administration building was significantly damaged by fire. The exact extent of the damage is yet to be quantified. The City maintains fire insurance cover and does not expect to incur significant financial loss as a result. Operations are expected to be disrupted for a period of six to nine months as repairs are undertaken.

**CITY OF COUNTRY  
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT  
FOR THE YEAR ENDED 30 JUNE 2025**

AASB 101.10(e)  
AASB 101.38

**28. OTHER MATERIAL ACCOUNTING POLICIES**

AASB 101.17(b)

Interpretation 1031

**a) Goods and services tax (GST)**

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

**b) Current and non-current classification**

The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the City's operational cycle. In the case of liabilities where the City does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the City's intentions to release for sale.

AASB 101.66  
AASB 101.69

**c) Rounding off figures**

All figures shown in this annual financial report, other than a rate in the dollar, are rounded to the nearest dollar. Amounts are presented in Australian Dollars.

AASB 101.51(e)  
FM Reg 15(3)  
AASB 101.51(d)

**d) Comparative figures**

Where required, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

AASB 101.38

When the City applies an accounting policy retrospectively, makes a retrospective restatement or reclassifies items in its financial statements that has a material effect on the statement of financial position, an additional (third) Statement of Financial Position as at the beginning of the preceding period in addition to the minimum comparative financial report is presented.

AASB 101.10(f)

**e) Budget comparative figures**

Unless otherwise stated, the budget comparative figures shown in this annual financial report relate to the original budget estimate for the relevant item of disclosure.

FM Reg 36(2)

**f) Superannuation**

The City contributes to a number of Superannuation Funds on behalf of employees. All funds to which the City contributes are defined contribution plans.

AASB 116.73(a)

**g) Fair value of assets and liabilities**

Fair value is the price that the City would receive to sell the asset or would have to pay to transfer a liability, in an orderly (i.e. unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

AASB 13.2,11.61,67

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset or liability. The fair values of assets that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

AASB 13.16-21

To the extent possible, market information is extracted from either the principal market for the asset or liability (i.e. the market with the greatest volume and level of activity for the asset or liability) or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (i.e. the market that maximises the receipts from the sale of the asset after taking into account transaction costs and transport costs).

AASB 13.27-33

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

**h) Interest revenue**

Interest revenue is calculated by applying the effective interest rate to the gross carrying amount of a financial asset measured at amortised cost except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

**i) Fair value hierarchy**

AASB 13 *Fair Value Measurement* requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurement into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

AASB 13.93

**Level 1**

Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

**Level 2**

Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

**Level 3**

Measurements based on unobservable inputs for the asset or liability.

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

AASB 13.93(d)

**Valuation techniques**

The City selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the City are consistent with one or more of the following valuation approaches:

**Market approach**

Valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.

AASB 13.B5

**Income approach**

Valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.

AASB 13.B10

**Cost approach**

Valuation techniques that reflect the current replacement cost of the service capacity of an asset.

AASB 13.B8

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the City gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability are considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

**j) Impairment of assets**

In accordance with Australian Accounting Standards the City's assets, other than inventories, are assessed at each reporting date to determine whether there is any indication they may be impaired.

AASB 136.9,12

Where such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, to the asset's carrying amount except for non-financial assets that are:

FM Reg 17A(4C)

- land and buildings classified as property, plant and equipment;
- infrastructure; or
- vested improvements that the local government controls, in circumstances where there has been an impairment indication of a general decrease in asset values.

These non-financial assets are assessed in accordance with the regulatory framework detailed in Note 10.

Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another Standard (e.g. AASB 116 *Property, Plant and Equipment*) whereby any impairment loss of a revalued asset is treated as a revaluation decrease in accordance with that other Standard.

## CITY OF COUNTRY NOTES TO AND FORMING PART OF THE FINANCIAL REPORT FOR THE YEAR ENDED 30 JUNE 2025

### 29. FUNCTION AND ACTIVITY

#### (a) Service objectives and descriptions

City operations as disclosed in this financial report encompass the following service orientated functions and activities.

<b>Objective</b>	<b>Description</b>
<b>Governance</b> To provide a decision making process for the efficient allocation of scarce resources.	Includes the activities of members of council and the administrative support available to the council for the provision of governance of the district. Other costs relate to the task of assisting council members and ratepayers on matters which do not concern specific local government services.
<b>General purpose funding</b> To collect revenue to allow for the provision of services.	Rates, general purpose government grants and interest revenue.
<b>Law, order, public safety</b> To provide services to help ensure a safer and environmentally conscious community.	Supervision and enforcement of various local laws relating to fire prevention, animal control and other aspects of public safety including emergency services.
<b>Health</b> To provide an operational framework for environmental and community health.	Inspection of food outlets and their control, provision of meat inspection services, noise control and waste disposal compliance.
<b>Education and welfare</b> To provide services to disadvantaged persons, the elderly, children and youth.	Maintenance of child minding centre, playgroup centre, senior citizen centre and aged care centre. Provision and maintenance of home care programs and youth services.
<b>Housing</b> To provide and maintain elderly residents housing.	Provision and maintenance of elderly residents housing.
<b>Community amenities</b> To provide services required by the community.	Rubbish collection services, operation of rubbish disposal sites, litter control, construction and maintenance of urban storm water drains, protection of the environment and administration of town planning schemes, cemetery and public conveniences.
<b>Recreation and culture</b> To establish and effectively manage infrastructure and resources which will help the social well being of the community.	Maintenance of public halls, civic centres, aquatic centre, beaches, recreation centres and various sporting facilities. Provision and maintenance of parks, gardens and playgrounds. Operation of library, museum and other cultural facilities.
<b>Transport</b> To provide safe, effective and efficient transport services to the community.	Construction and maintenance of roads, streets, footpaths, depots, cycle ways, parking facilities and traffic control. Cleaning of streets and maintenance of street trees, street lighting etc.
<b>Economic services</b> To help promote the local government and its economic wellbeing.	Tourism and area promotion including the maintenance and operation of a caravan park. Provision of rural services including weed control, vermin control and standpipes. Building Control.
<b>Other property and services</b> To monitor and control operating accounts.	Private works operation, plant repair and costs.

Self-supporting loans are financed by payments from third parties. These are shown in Note 4 as other financial assets at amortised cost.  
All other loan repayments were financed by general purpose revenue.
